TRANSMARINE TO MOVE TERMINUS

Beaumont to Get Pt. Arthur Headquarters

DOCK WRANGLE BLAMED

K. C. S. Control Charged As Influencing Move

Headquarters of the Transmarine line corporation, now being maintained in Port Arthur, will be moved to Beaumont within a very short time.

This seemed to be the consensus of opinion here regarding the outcome of the negotiations now being carried on by Beaumont between Transmarine line officials and the Beaumont Chamber of Commerce regarding dock facilities and cargo space.

Arrangements Now Pending.

The offices of the Transmarine line in charge here of Jim Boyd, local agent, will in all doubt be moved to Beaumont just as soon as these arrangements are completed.

Word from Beaumont this morning was to the effect that dock space would be available sometime after the first of the year for the eastward move.

The Beaumont chamber has promised unlimited dock facilities for the Transmarine line and it is said that the move will be made with closed warehouse facilities.

Port Arthur will probably lose headquarters of the line.

It was pointed out that while it might lose the headquarters, Port Arthur would still be a port of call for the Transmarine line, making up such tonnage as might originate along the KCS.

This, however, depends upon the attitude the KCS might assume in the matter in forcing tonnage to be shipped to Port Arthur instead of Beaumont.

If the KCS fails in this then Port Arthur will in all doubt lose most of the tonnage now coming through to this city and it will stay at Beaumont. Should this happen then Port Arthur might also be dropped as a port of call by Transmarine line officials.

Cut Tonnage Here.

The effect of the move will be to cut Port Arthur off from all eastward tonnage and materially reduce our tonnage figures through the U. S. army engineers office, since all eastward boats must report to the district engineer instead of to customs officials.

If the Transmarine line headquarters move to Beaumont it will give Port Arthur a black eye," said one traffic man this morning. "It means traffic man this morning."

Another Lad Is Shotgun Victim

Fourth Youth in Month Is Accidentally Killed

BEAUMONT, Texas, Nov. 30.—The fourth death resulting from an accidental gun discharge within a month occurred late Thursday evening when Mitchell Ollman was killed in a shooting on the beach.

Indiana Governor Is Indicted by Grand Jury

Irene Castle Weds

FRAUD CHARGED AGAINST M'CRAY

State Bankers Appear As Witnesses

SESSION SECRET

Probe Outcome of Executive's Bank's Difficulties

INDIANAPOLIS, Ind., Nov. 30.—Warren T. McCray, governor of Indiana, was indicted by the Marion county grand jury today on charges of alleged irregularities in his personal financial transactions.

The indictment, returned after an investigation lasting nearly two months, mentioned eight separate counts.

Eight Counts.

Investigation of McCray's financial transactions was started soon after he announced he was "broke."

The investigation which led to the charges against McCray was started at the request of the First National Bank of Marion, Ind. This bank held approximately \$22,000 worth of McCray paper and was one of some 200 creditors.

The inquiry was started October 5. Every precaution was taken to insure secrecy.

Police were stationed on the floor of the court room where the grand jury is located.

Note Signers Testify.

As the inquiry started, Judge Collins called in the members of the jury and instructed them it was their duty to investigate all law violations occurring within the county.

The first witness was Gus S. Condo, attorney for the Marion bank. He was followed by E. W. Blackburn, president of the bank, and by Hume Sammons, attorney for Kentland.

Later employees of McCray, whose names appeared on the notes were called.

Because of the illness of Moore, the investigation at first dragged along slowly. Later, after Clarence W. Nichols had been named special prosecutor, the investigation was pushed rapidly.

Bankers from various parts of the state testified.

Chickens At Large Pay Fines As Horses, Cows

Are chickens animals? Technically, they are not, but under the jurisdiction of the strong arm of the law, which reaches out over and under the unbridled miscreant, they become the equivalent of animals in general when they get out of their own back yard.

This is a fact evidenced by Pound Master C. W. Toote's monthly report to the city commissioners, which reveals that during November as many as six complaints of chickens running at large were made to the pound office, and as many notices served on violators to keep their chickens at home.

Congressmen may run at large, so avers the pound master, but chickens may not. Those who find free must pay the penalty as horses and cows.

'Do Your Xmas Pleading Early' City Court's Motto

With the continued necessity for attendance at federal court of Port Arthur police officers, Judge A. W. Dye in cooperation court is daily being faced with additional continuances of cases and within the next ten days the Christmas rush of cases will be on.

In two nights' raids police officers ledged countless of vagrancy against some 40 men and women and because of the absence of police officers attending federal court, continuances were necessary.

'Do your Christmas pleading early' is the slogan to be adopted with in the next ten days by corporation court attorneys.

AVANT FILES SUIT, CLAIMS COMMISSION

BEAUMONT, Texas, Nov. 30.—Sue for commission on the sale of property by the Avant Realty company for Port Arthur against Dr. S. E. White, also of Port Arthur, was filed in county court at law Friday morning.

According to the petition property on Procter street was sold by the Avant company and the commission they are alleged to have received was not paid.

TEXAS HIGHWAYS ARE REPORTED TO BE FAIR

DALLAS, Texas, Nov. 30.—Despite the rain and snow that fell in many parts of the state Wednesday, Texas highways are reported generally fair with the exception of some rough stretches.

Hangings For Pretty School Teacher Is Demand of Farmers

Preliminary Hanging for Girl and Uncle Accused of Slaying His Wife Gets Under Way

By United Press.

FARMERS from every section of Lincoln county who have taken up the fight to prevent the murders of Mrs. Florence K. Scott, shot to death last June, began streaming into Mound City today for the preliminary hearing of the dead woman's husband and her niece, accused of the slaying.

At daybreak a steady stream of buzzards, wagons and autos began arriving in the county seat, showing signs of having traveled far over muddy roads.

Love Affair Alleged.

Many came from the vicinity of La Crosse, a small village where Scott, once a prosperous merchant, and his wife had made their home. The niece, Arlene Scott, a pretty 19-year-old school teacher, lived with the Scotts, her aunt and uncle, and the prosecutors planned to show at the preliminary hearing that a love affair between Arlene and Scott furnished a motive for the killing.

Farmers throughout the county have united to demand that the slayers of Mrs. Scott be hanged.

When they believed local officials lagging in the prosecution, they raised a fund of \$1200 to carry on the investigation. A committee called on Charles H. Griffith, state attorney general, at Topeka and laid the facts of their private probe before him and asked that he participate in the prosecution.

Griffith stepped into the case and the arrest of Arlene while she was teaching a country school near Centerville followed.

Since Arlene's release on \$10,000 bond she has been staying on her father's farm six miles from Centerville. She would not discuss the case before testifying that "village gossip" had caused all the trouble.

Scott, who since her first trial resulted in hung jury, has been forced to sell his La Crosse business to provide money for his defense, is staying

(Turn to Page 2, Column 2.)

WHEN I WAS 20

By DON GREEN Bookkeeper

When I was 20 I was buying cattle up in Shelby county, Texas, and across the Sabine river in Louisiana. That was 15 years ago, and I had been away from home about three years. Before that I helped make crops of cotton and corn on my folks' farm near Shelby, Texas.

PERMITS REACH \$185,112 TOTAL

\$104,859 \$24,000

Ahead of the November 1922 building permit values for \$104,859.50, Port Arthur's totals for November 1922 amounted to \$185,112.50, the records in the office of Building Inspector Busby showed at noon today.

The November 1922 total was \$86,253, according to the records.

This is an increase of approximately 15.35 per cent for the November 1922 building values over the values for the same month of last year.

"Other permits will be brought in this afternoon, and it is possible that the month's figure will exceed the \$200,000 mark before the day is over," Building Inspector Busby said today.

During the month a total of 158 permits were issued, against 302 for November last year, the records show. Of the total number of permits taken out this month, 33, or approximately one-third of the total 158 issued, were for residences.

Two were for mercantile establishments, one being built for E. E. Weller and H. E. Zeller at a cost of \$24,000, and the other for George Manos, under construction at 1201 Procter street, and will cost \$11,500.

TURKEY Yesterday—and Now It's Hash Today!

From turkey to hash tells the story of Thanksgiving.

Yesterday the lowest to the mightiest of citizens of Port Arthur ate chicken, duck, goose or turkey. The face was uneven on Thanksgiving day. The citizenry of the city is on an even plane.

Everybody is eating hash—that is, everyone by-product of the remains of the Thanksgiving spread.

The proud turkey, like the proverbial dog, has had its day. For three weeks, turkeys will drop into the limbo of market quotations until Christmas.

So on the day following one of the winter holidays, regardless of what the family's standing might have been on the holiday, everyone is equal. Everyone eats hash. Outside of death, perhaps turkey scraps are the greatest leveler in the nation. So instead of cursing the bills payable tomorrow, eat hash—and feel like everything.

The well is expected to deliver over a million gallons of water daily, which is more than enough to supply the city at the present average daily rate of consumption. Herpin said within 24 hours after the water from the new well is pumped into the city's mains consumers will know definitely whether or not the water is any improvement over the present supply, according to the engineer.

Preliminary tests made on the water from the well show it to be practically free from salt and special precautions to keep salt water from seeping in were taken as the well was being drilled. If the new well proves up as a fresh water source, the city plans to drill other wells, about eight months being necessary to determine the dependability of the well to keep up a fresh water flow, the city engineer said.

BABE CREMATED

Gas Vapor Ignites, Burns Mother and Two Others

GORMAN, Texas, Nov. 30.—Fire which started from gasoline with which Mrs. W. E. Billard was cleaning clothes, resulted in the death of Mrs. Billard's baby daughter and the serious injury of the woman and two other children at the Billard farm near here.

Vapor from the gasoline was ignited by a store in the room. It was believed. An explosion followed and the fire spread rapidly through the house which was completely destroyed.

Meet After 60 Years

SENATOR PAID FOR QUARTERS

ex-Member's Influence

SUDDEN PROSPERITY

Claims Former Senator's Finances Improved

By United Press.

WASHINGTON, Nov. 30.—Evidence was submitted to the senate committee investigating the Teapot Dome naval oil reserve today in a frank attempt to show the leasing of Teapot Dome by former Secretary of Interior Fall to the Sinclair Oil interests had a direct bearing on his personal fortunes.

Tax Collector's Affidavit.

Senator Walsh (Montana) of the committee submitted the sworn statement of a tax collector that Fall had not paid taxes on his New Mexico ranch from 1912 to 1922, but had paid them in full in June, 1922.

The Teapot Dome lease was entered into in April, 1922.

Carl C. Magee, editor of the Albuquerque State Tribune, testified that Fall's financial affairs had been weak before the date upon which the lease was entered into and had apparently prospered after the lease.

No serious were the implications of the testimony that Senator Smoot, a member of the committee, wired Fall today, inviting him to appear before the subcommittee to explain the situation.

Other Tax Payments.

The document given by Walsh was signed by the county tax collector in the county where Fall has a 300-acre ranch. It stated that Fall had paid none of his assessments from 1912 to 1922. The back taxes however, were paid in full on June 5, 1922.

Magee told the committee that he bought Fall's interest in the Albuquerque Journal in February, 1920. Fall at that time told him, Magee said, that financial necessities forced him to sell the interest.

Magee also described the "dilapidated" condition of Fall's big ranch when Magee visited Fall to consummate the deal in that month.

A three-mile road leading from the railroad station at Three Rivers, N. M., to the house on Fall's ranch was unimproved and in bad condition, Magee said.

Alleges Sudden Improvements.

Last August, Magee again passed the ranch and at that time extensive improvements had been made on the road. There were pillars at the entrance and a wire fence had been put up while the road itself had been paved, Magee said.

Magee also declared he had been informed Fall was forced to resign the senate because of financial affairs. He quoted Fall as saying the senate "broke" him.

Magee admitted he was a political opponent of Fall. He said that he expected a political move of Fall to control the state public land office in New Mexico.

"Fall came to my office and asked me if I was responsible for the article," Magee said. "I told him I was."

"Fall then told me, 'I'll put you on the rack and break you.'"

"All right," I told him, "put on your hat and come on in the water's fine."

Claims Intimidation.

Senator Bursum, New Mexico, told Magee that Fall was behind a move to force Magee out of the editorship of the morning Journal which he had bought from Fall. Magee said that a Kansas City, Mo., bank was going to sell him a \$500,000 note and "you will lose control of the Journal."

"Bursum told me he gave me this information not because he feared me, but because he feared Fall," Magee said. "I had not even told a wife about that outstanding \$500,000 note and I had an agreement with the Kansas City bank and it was to be continued."

Magee said he ran into such opposition from all sides that he was forced to sell the paper in 1922.

G. A. Clayton, former treasurer of Otero county, New Mexico, and William Harris, a rancher living near Fall's ranch, testified concerning Fall's financial affairs.

Harris said he sold Fall property for \$50,000 and received a check in payment in 1921. The contract for the deal was signed in 1920. This was in refutation of previous testimony that Fall had not bought the ranch until later.

WARMER

LOCAL FORECAST: Tomorrow (Sat.) warmer, Saturday partly cloudy.

PORT ARTHUR: Tomorrow (Sat.) warmer, Saturday partly cloudy.

WINDS ON TEXAS COAST: Moderate southwesterly.

The Young Spartans

ADVENTURES OF THE TWINS

"How do you do, children?" said the Riddle Lady kindly.

"Make way! Make way!" cried Dick Red Cap. "Here comes the Riddle Lady. She has another riddle for everybody to guess."

Just then there was a clattering of hoofs and a large coach drew up, drawn by six black horses.

Thumpety Dumpty opened the door and Nick bowed low while Nancy made her best courtesy.

"How do you do, children?" said the Riddle Lady kindly. "How do you do, everybody? I'm very late today because I was at a tea-party and the ice cream didn't come and we waited and waited. And finally when it did come it was so cold we couldn't eat it in a hurry, so there you are, you have the whole story."

"We hope you had a nice time," spoke up a tall gentleman in a yellow velvet suit and black satin spats.

"Splendid, thank you! But speaking of time reminds me of my riddle. I'll begin at once. I wrote it and then learned it by heart." So she began:

"A diller a dollar a twelve o'clock scholar,
With face as round as the moon,
You count and count from noon till night,
And then from night till noon.

"You never rest the year around.
To labor you must like,
Yet though you work so faithfully,
You're always on a strike."

"You matter, matter as you work," said the tall gentleman in the yellow suit, wagging his head till his ears thumped.

"A very hard one!" agreed all the Riddle Landers solemnly.

At that very minute a speckled hen began to tell the world that she had laid an egg. "Clock, clock, clock, clock, clock!" she cackled loudly.

"Nancy called out, 'That's it! The hen cackled! It's a clock, isn't it?'"

"That's right! It is," nodded the Riddle Lady. "Thumpety Dumpty, please give her a handful of corn for being so smart. Nancy and Nick, you may drive home with me and help me make up tomorrow's riddle."

(To Be Continued)

CHILD'S STORY OF THE HUMAN RACE

CHILD STORY FRIDAY

When Man Moved Upon Lakes.

In the year 1854 it didn't rain for a long time in Switzerland. This caused the lakes to dry up around the shores.

People living in a bay of the Lake of Zurich decided to take advantage of the low water and enlarge their gardens. They dredged the bay, but to their surprise they struck against posts which had been driven in the bottom of the lake.

Who had put these posts there? That was the question.

Scientists were asked to find out. They discovered that in the mud around these posts were stone tools.

Other lakes were dredged. In their bottoms, also, posts were discovered. Remains of Stone Age people were found in lakes of England, Germany and Italy, but Switzerland proved the great center of discovery. In one Swiss lake were 32 groups of posts, in another 40 groups.

What did each group mean? It meant a lake village had been there. While still in the Stone Age, tens of thousands of men, women, and children built homes on lakes. To do so, they cut tree trunks into posts from 10 to 30 feet long. Each post was pointed at one end.

Sometimes wading, sometimes pulling in their heavy tree-trunk canoes, they carried the posts out into the lake and pounded them into the lake bottom. Over the tops they built platforms with tree trunks which had been smoothed by stone axes, hatchets and chisels.

The next step was to build huts on top of the platforms. The picture will give you an idea of how some of these huts are believed to have looked. They were more substantial than most of the huts built on the land in previous times. In some lake villages there were hundreds of huts. From each village, one or more platforms led to the shore.

Many pottery jars, dishes and bowls have been uncovered where the villages once stood. Bone hooks are also among the debris, and these indicated that the lake-dwellers used to fish from their houses.

Wooden boats and pieces of fishing nets were raised from mud. Some of the fishing nets were made of straw, others of fish fibers.

Next—Lake Dwellers and Their Herds

A scene in a Swiss lake village is portrayed here.

STORES SEEKING RASPBERRY JOKER

NEW YORK, Nov. 30.—The "raspberry joker" is being sought by New York department stores because of the pranks he has been playing on them.

He has been calling at stores and offering goods sent C. O. D. to R. A. S. Berry at a certain address. When delivery is made no one by that name is found to live there.

BRITAIN SCARED BY WAR RUMORS

Alleged German Actions Is
Laid to Propaganda

By LLOYD ALLEN

LONDON, Nov. 20.—A sensation has been caused by publication of an article in the British newspaper by a New Agency stating the government is concerned over military operations in Germany.

The article said "rapid military training of large numbers of men in view of Versailles treaty stipulations has been progressing" and that the government is cognizant of the fact. As the agency is often credited with "semi-official" information, the statement about Germany's activities has been taken seriously and caused great alarm.

The foreign office immediately disclaimed official authority for the statement but the fact was in the air.

The papers controlled by Lord Rotherham today evidence the greatest concern over the report. Others point out there was nothing but repetition of charges made by Premier Poincare of France. The Daily Express declares the statement "possesses the elements of propaganda." And adds:

"The British government is entitled to demand that the agency disclose the source of its information." The Manchester Guardian declares the agency statement to be at variance with official opinion regarding Germany and says:

"Whether inspired by that statement or palpably bent on mischief."

The Times editorial indicates the statement is likely to have in the United States and says it probably coincides with some retired member of the one of the disbanded British divisions to the continent.

**odies of 100 Germans
Found in Life Postures.**

VERDUN, Nov. 20.—Bodies of more than 100 German soldiers, posed in lifelike attitudes, were found in a tunnel between Verdun and Bethune.

They had been caught in a surprise attack during the battle of Verdun.

The Germans were bottling material when they were killed. The gas must have acted instantaneously, for they were found in life positions.

Today, against the walls of the tunnel, German rifles, at one end, and heroic acts of the world war.

**1,000 DELEGATES TO
ATTEND TEACHERS MEET**

FORT WORTH, Nov. 20.—Between 1,000 and 12,000 delegates were expected to attend today's and Saturday's sessions of the annual meeting of the Texas State Teachers' association.

Hotels are crowded to capacity. Many of the visitors are being housed in private homes.

A plan that Texas be brought from place to the thirty-sixth state in union in educational rank and elected to first place, is being made by teachers who met for the first time in business yesterday.

**IRT TIME SCHOOLS
GROW MORE POPULAR**

WADSWORTH, Wis., Nov. 20.—There is increased interest throughout the state in part time schools for vocational education according to George P. Hambrecht, state director of vocational education, he said.

Director Hambrecht predicts that a enrollment of vocational classes during the present year will show an appreciable increase over enrollment of 1931.

Last year over 52,000 children and adults were instructed in part time schools in 48 cities of the state.

**IGHT FROST VISITS
HERE DURING NIGHT**

Light frost with a smattering of snow on roads visited Port Arthur this morning and throughout the day.

Part of the day, particularly in the Panhandle heavy to light frosts were recorded.

Slight rises in temperature were noted in the cities of the Texas Gulf coast in weather reports coming here this morning.

**THE SHOP-O-SCOPE aims
give better gifts—and its aim
could not be better.**

**RHEUMATISM
Leaves You Forever**

Every druggist in this community is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenburh, the sure conqueror of rheumatism, does not show the way to the agony, reduce swollen joints, do away with even the slightest tinge of rheumatic pain, he will return your money without question.

Allenburh has been tried and tested for years, and really marvelous results have been accomplished in the most serious cases where the suffering and agony was intense and pitiable and the patient was helpless.

Mr. James H. Allen, the discoverer of Allenburh, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that does not wait a cent of anyone's money unless Allenburh decisively conquers this worst of all diseases, and he is instructed druggists to guarantee as above in every instance. Hartung Street, Service Drug Store and Corner Drug Store can supply you.

Houston Couple Are Wed on 'Main Street'

HOLSTON, Nov. 20.—Mr. and Mrs. J. A. Nicholson were happily married today after one of the strangest ceremonies on record.

Happening to hold an auction over two persons killed in an automobile accident, Judge Campbell Overstreet received a call to perform a marriage.

"I can't. I'm very busy," Overstreet explained heartily.

"You can't. I'm a railway conductor for and am leaving town tonight," Nicholson explained.

Ten minutes later, on a downtown corner, Judge Overstreet stopped long enough on the death call to perform a hurried ceremony while an interested crowd watched the bride's kiss and all.

The previous ceremony will include Dr. Marx, chancellor, Stresemann, foreign minister, the late, Dr. Stresemann, finance, justice, labor, education, agriculture, commerce, industry, justice, science, post, telegraph, economy.

**Dying Gunman Admits
Shooting of Patrolman**

WICHITA, Kan., Nov. 20.—Ray H. Fink, wavering between life and death in a hospital, admitted today that he had shot and killed a police officer.

A police officer in a room and the patrolman was fatally wounded.

"Well, he wasn't nothing to me, we were going the same route," he replied and then burst into tears.

This statement by Fink, his first admission that he is the man who shot and probably fatally wounded F. C. Scudder, Wichita policeman in an effort to escape from a dance hall.

Patrolman Robert C. Scudder, the Wichita policeman was unconscious early this morning in a local hospital.

5 STATES UNDER SNOW BLANKET

Wheat Growers Welcome
Protective Covering

KANSAS CITY, Mo., Nov. 20.—

Snow ranging from four to eight inches blanketed Kansas, Missouri and parts of Oklahoma, Arkansas and Nebraska today. Eight inches fell in Kansas City within a few hours—the heaviest snowfall in two years.

The snow was wet, the temperature was just below freezing and there was little wind so there were few drifts, making it an ideal fall for wheat. In case the temperature should drop sufficiently now to injure the crop, wheat will be protected by the snow blanket.

L. D. Graham, assistant secretary of agriculture for Kansas said the snow would be of great benefit to the growing plants.

Street car and interurban traffic and wire communication was seriously affected. Many motorists on Frank-

liner trips were stalled on slippery roads.

Clearing weather was predicted for today with little thawing.

First M. E. Church Board To Hold Official Meet

Organization of the work of the First M. E. church, South, for the new pastoral year is scheduled for a meeting of the official board of the church tonight at 7:30 o'clock in the church building, 1541 Fifth street.

Rev. Dr. V. A. Godbey, pastor in charge, said today.

A chairman, secretary and treasurer will be elected, and important standing committees will be appointed at this time, Rev. Godbey said. It is also planned to fix the church budget for the new year, and take up matters of importance in connection with the building enterprise, the pastor said.

BOY OF 13 DIES VICTIM OF HURT IN FOOTBALL

TOLEDO, Ohio, Nov. 20.—John Kelly, 13 years old, died at a hospital here this morning from injuries received in a school football game last Thursday. Kelly was tackled hard and sustained a fractured skull.

Comparative Prices and Values Are Not Confidence Builders

This store and its associate stores throughout the United States, agree with the decision of the National Vigilance Committee, charged to create maximum public confidence in Advertising, that "a comparative price is a statement of fact," which must be determined by actual comparison or otherwise it is not always true in fact—"a comparative value is a statement of opinion," thus always being open to a question of doubt.

The actual worth of our goods is expressed by our prices and thus we do not name comparative prices or comparative values.

We believe Truthful Advertising is the Only Advertising worth while.

Fruit Cake Just Like Mother Used to Make

Interesting Left Over Dishes Can Be Evolved From Turkey

And the Number of Meals Possible From One Bird Brings Down the Cost of the Average

DO YOU shudder to think of "one turkey for a week" after your Thanksgiving dinner? Yes, indeed, for there are all sorts of interesting left over dishes that can be evolved from turkey.

And in these dishes it's the utilization of high-priced turkey. But if the initial cost of turkey is great, the number of really delicious meals possible from one bird brings down the average.

There is one precaution in making turkey dishes. Do not cook the turkey for any length of time. Long cooking will make it stringy and tasteless. The sure way to cook it and let it go at that.

Turkey combines well with rice or macaroni. The tiny scraps of meat should be used in a made dish requiring minced turkey.

There will be one host of delicious cold sliced turkey. Serve with cranberry or currant jelly. The meat could be something like this:

Cream of Tomato Soup
Turkey, Baked Potatoes
Canned Corn
Cold Stewed Turkey
Cranberry Jelly

Head Lettuce, Salad with Cheese Dressing
Canned Fruit
Cakes

This is a well balanced meal. If there are shivers of white or fat on dark meat, use them in this salad. The ingredients are for one sandwich.

Turkey Sandwich
Thin thin slices of turkey, 2 crisp slices of very thin bacon, 2 stiff slices of lettuce, mayonnaise, 3 triangles of hot buttered toast.

Put one piece of toast on a plate, cover with lettuce, spread with mayonnaise and add two pieces of turkey and one of bacon. Sprinkle with thinly sliced onions. Cover with a second piece of toast and add ingredients as for first piece. Top with remaining piece of toast. Grind with thin strips of chili pickle and serve.

This sandwich with a cup of hot coffee makes an ideal luncheon or late evening supper when meat is unobtainable.

Turkey in Hamkins

One cup cold sliced turkey, 2 tablespoons butter, 2 tablespoons flour, 1 teaspoon salt, 1/4 teaspoon celery pepper, 6 long sticks macaroni, 1 cup milk, 1/2 teaspoon pepper, buttered crumbs.

Cook macaroni in boiling salted water for half an hour. Put the sticks into the water slowly and they will soften enough to be cooked unbroken.

Melt butter, stir in flour, salt and celery pepper and cook until smooth. Shake and milk, stirring constantly. Add pepper and cook until thick and

smooth. Add minced turkey and more from fire. Line well buttered hamkins or custard cups with macaroni, fill with creamed turkey, cover with buttered crumbs and bake in a hot oven for 30 minutes. Turn out of pan and serve with tomato sauce.

Any left over dressing can be used with the meat in this recipe. The addition of onion, celery and ground peppers adds to the savoryness of the dish, but the cook must use her own discretion in adding strong flavors.

And when the bones are packed and the poor bird is quite bare there is a very good soup to be made.

Turkey Soup
Break the turkey carcass in pieces. Put in a kettle with any bits of meat

or skin. Cover with cold water and simmer one hour. Add celery leaves and one medium sized onion. Simmer one hour longer. Strain and add enough hot water to make four cups.

Bring to the boiling point, season with salt and pepper and add one quart cup well washed rice. Cook over hot water for about an hour longer, until rice is tender. Rub three canned pineapples through a strainer and stir into soup. Heat very hot and serve with crisp crackers or toast sticks.

Giblet Gravy
Cook giblets in salted water for tender, about two hours. Drain and chop, reserving the water for gravy. Make the gravy in the pan in which the turkey was roasted. If there is too much fat in the pan pour off some, leaving two or three tablespoons. Stir in three tablespoons of flour. Slowly add the giblet stock, thick should be three cups. Stir constantly until thick and smooth. Add giblets and boil three minutes. Season with salt and pepper and serve.

A plain bread stuffing is always good with turkey. An oyster stuffing can be used if preferred but adds nothing to the turkey itself.

Stuffing
Two and one-half cups stale, soft

bread crumbs, 1/2 cup melted butter, 1/2 teaspoon salt, 1/2 teaspoon pepper, 1/2 teaspoon sage (optional), water.

Add salt, pepper and sage to the crumbs and mix well. Pour over melted butter, lifting and mixing with fork. Add just enough warm water to hold crumbs together, mixing with the hand.

When stuffing is eaten hot an egg is not necessary. For oyster stuffing add one pint washed and drained oysters.

smooth. Add minced turkey and more from fire. Line well buttered hamkins or custard cups with macaroni, fill with creamed turkey, cover with buttered crumbs and bake in a hot oven for 30 minutes. Turn out of pan and serve with tomato sauce.

If cranberry sauce is used, ground in a blender, sprinkle with buttered crumbs and serve very hot.

Mold of Rice and Turkey
One cup rice, 2 cups chopped cold turkey, 1/4 cup bread crumbs, 1/2 cup milk, 1/2 teaspoon pepper.

Wash rice and add to rapidly boiling salted water. Cook until tender. Line a well buttered brick, loaf or oval pan with one-half inch layer of rice. Fill with turkey and seasonings. Cover with a layer of rice. Steam 15 minutes or bake 30 minutes. Turn out of pan and serve with tomato sauce.

Any left over dressing can be used with the meat in this recipe. The addition of onion, celery and ground peppers adds to the savoryness of the dish, but the cook must use her own discretion in adding strong flavors.

smooth. Add minced turkey and more from fire. Line well buttered hamkins or custard cups with macaroni, fill with creamed turkey, cover with buttered crumbs and bake in a hot oven for 30 minutes. Turn out of pan and serve with tomato sauce.

If cranberry sauce is used, ground in a blender, sprinkle with buttered crumbs and serve very hot.

Mold of Rice and Turkey
One cup rice, 2 cups chopped cold turkey, 1/4 cup bread crumbs, 1/2 cup milk, 1/2 teaspoon pepper.

Wash rice and add to rapidly boiling salted water. Cook until tender. Line a well buttered brick, loaf or oval pan with one-half inch layer of rice. Fill with turkey and seasonings. Cover with a layer of rice. Steam 15 minutes or bake 30 minutes. Turn out of pan and serve with tomato sauce.

Any left over dressing can be used with the meat in this recipe. The addition of onion, celery and ground peppers adds to the savoryness of the dish, but the cook must use her own discretion in adding strong flavors.

And when the bones are packed and the poor bird is quite bare there is a very good soup to be made.

Turkey Soup
Break the turkey carcass in pieces. Put in a kettle with any bits of meat

or skin. Cover with cold water and simmer one hour. Add celery leaves and one medium sized onion. Simmer one hour longer. Strain and add enough hot water to make four cups.

Bring to the boiling point, season with salt and pepper and add one quart cup well washed rice. Cook over hot water for about an hour longer, until rice is tender. Rub three canned pineapples through a strainer and stir into soup. Heat very hot and serve with crisp crackers or toast sticks.

Giblet Gravy
Cook giblets in salted water for tender, about two hours. Drain and chop, reserving the water for gravy. Make the gravy in the pan in which the turkey was roasted. If there is too much fat in the pan pour off some, leaving two or three tablespoons. Stir in three tablespoons of flour. Slowly add the giblet stock, thick should be three cups. Stir constantly until thick and smooth. Add giblets and boil three minutes. Season with salt and pepper and serve.

Southern Conference Title Will Always Be an Argument for Gridiron Season

Mamos-Actor Mat Classic at Elks Theatre Tonight at

Fandom Anticipates Exciting Scrap in Actors Return Bout

Former Port Arthurian To Again Make Bow In Athletic Card With Speedy Opponent Occupying Other Corner of Ring

WHEN George Actor heard that other, well-known grapplers had invaded the realm of sportdom where he entered the ring a few months back the popular idol, he forthwith sent a challenge to any and all comers in Port Arthur.

That challenge arrived the evening Harry Mamos, contender for the light-heavyweight championship of the world, met and defeated Mike Poulos of Alexandria, La., in the Plaza National arena. And Mamos accepted the challenge for a bout "at the earliest chance."

Tonight, the fans of Port Arthur, in the Elks theatre, will be treated to that bout—a "battle royal," as Will Fort, local promoter, announces it—when the husky Greek from Oklahoma who formerly made records here again enters the squared mat to face Mamos.

Both grapplers are unusual exponents of the game in that they have been tutored in the keenest points of the art of wrestling. Both have years of experience in hard, long-drawn tussles to their credit that tonight will count either a victory or a loss for them.

Yesterday, they simmered down their training tactics to tight work-out. This morning they took only light exercises and lighter meals, and tonight they will enter the ring at catch-weights in the 180-pound division to settle their argument. Fans have been anxiously watching the training of the two big men; interest is running high, and the theater will be packed tonight with those who want to witness the return engagement of George Actor against a worthy opponent.

Mamos recently struck a bag of ill-luck in the Houston ring, but it was no dishonor for him to lose to such a grappler as Clarence Ecklund, light-heavyweight title holder, who won a grueling match in the City Auditorium Tuesday evening before 2,000 fans only after Mamos had put up a valiant fight. The Houston men had had in seasons.

Actor returns to Port Arthur from a successful trip in the east, through the middle west and through Oklahoma, where he wrestled recently in several successful bouts.

The card tonight, which is a triple bill through the courtesy of Promoter Fort, starts at 7:30 o'clock with the appearance of Kid Horn of New York City, opposing George Avakian of Port Arthur, in an exhibition match. Big Leo Brumley, giant among the light-heavyweights, will meet Mike Poulos, the Alexandria speed machine, in a one-fall bill in the prelims—then Actor and Mamos.

A number of ring side seats have been reserved on the theater stage, and plans to present the program to a packed house.

LUIS READY TO BATTLE WILLS

Says He Has Accepted the Proposals of Negro

BIRMINGHAM, Nov. 30.—Luis Angulo Firpo announces that he has accepted a proposal to fight Harry Wills, the American negro. He has not said when or where the fight will take place or by whom it will be promoted.

Firpo's announcement is regarded here as a bit of advertising, probably sent out under instructions from his business advisers in New York, who have lately been much cheered by the publicity the Firpo has worked up for himself in American

W. and J. Wins

MORGANTOWN, W. Va., Nov. 30.—The undefeated West Virginia team, whose worst showing had been a tie with Penn State, was thrown for an unexpected loss by Washington and Jefferson in the windup game of the season in the presence of 18,000 witnesses Thursday afternoon. The score was 7 to 2.

Battle to Tie

MEMORIAL STADIUM, LAWRENCE, Kans., Nov. 30.—The Kansas Jayhawkers and Missouri Tigers battled to a 3 to 3 tie here Thursday night as 21,000 shivering spectators looked on.

NEXT CHAMP?

Joe "Toots" Mondt, former cow-puncher, looks up as the most formidable rival for the heavyweight title, now held by Ed "strangler" Lewis.

Mondt, who has been in condition, during the summer months when many wrestlers are losing, Mondt made his time roughing it in the duck mountains.

In his last contest with the champion, Mondt held Lewis to a two-hour draw, there being a time limit.

VARSITY WINS FARMER SCRAP

Fluke Settles Tradition As 20,000 Fans Look on

By BILL ARCHER

A mud-smeared heavy pig-dip, sloshed through the air, knickerbocker's hands grasped it for an instant, then it sped through the air as all the night and braven of two mighty football teams crashed together on a line of scrimmage.

A Mamos-and-White sweated man plunged through the tackles and opposing backs, his arms outstretched in a final effort, then fell with arms still extended, head still skyward, eye still on the ball, his chin in the mud—while the ball rolled "incomplete."

That was just one scene from the never-to-be-forgotten Aggie-Varsity "gridiron grid battle" yesterday. And it depicts the way the Farmers fell, fighting, fighting, fighting, with all their hearts.

Texas outplayed A. and M. Texas plunged greater distances. Texas skirted the ends for bigger gains. Texas pushed the ball always to opposing territory. But Texas crossed the Aggie goal line, the first time in the history of Kyle Field, on a fluke.

Just like in the Rice-A. and M. scrap, a Texas punt rolled through (then) Donnell's arms. Big Joe Ward toppled the Mamos-and-White sweat-soaked man, Lane Texas, playing his last season with Texas P., scored on the piskin three yards from goal, and scored the only points the Longhorns made yesterday.

It was a slow field. In fact a sluggish field, spotted with mud and water at varied intervals in the 100 yards between the two uprights. But it was a great game of football. Texas showed her speed; the Aggies their strength.

Pos.	A. & M. (C)	Tex. (S)

Walkers Walk and Finish Contest, But Judges Are Dubious

NEW YORK, Nov. 30.—Walkers from east and west from Canada and from foreign lands, walked in the thirteenth annual handicap walk of the Walkers Club of America yesterday, but a judge knows who walked away with the prize.

Officials of the Walkers Club and the registration committee of the Metropolitan A. A. C. struggled today to straighten out the tangle into which the ninety-nine starters had walked.

Young Charles E. Farenbach of the Pastime A. C. was first to the finish at Surf Avenue, Coney Island. Then came G. Bristow, sporting the stripes of the Canadian Y. M. C. A. Willie Plant, who is a walkers who is to the prize ring, was fourth, having started from scratch.

Plant administered a sound defeat to Granville, the Canadian walker who finished thirteen, reversing the result of the national seven mile championship last month. The officials had checked off the first 27 arrivals and the rest were drifting away and it seemed to be all over when the first of the judges who had been stationed along the course arrived breathlessly.

MADE RECORDS

Much has been said about the scoring records compiled on various college teams this season. But there are at least two aggregations, however, that hung up notable feats, without making in for any publicity.

One of these is the City College eleven of New York, the other Villa Nova. At the first seven games played by these two teams they failed to score a single victory. The record stood 125 points against New York City College and 172 against Villa Nova.

Farewell "Comp"

PITTSBURGH, Nov. 30.—As a farewell commitment to their famous March Glenn Wagner, who goes to Stanford University, California, next fall, the Pittsburgh Panthers played out a victory over the swift and punchy Penn State team and surprised a crowd of 3,000 roared madly yesterday afternoon. The score was 20 to 3.

Ringing Down Grid Curtain for 1923

Upper circle, Frank Noonan. Lower circle, Matt Brown and captain Marion Ashmore, Gonzaga University stars who played in Thanksgiving day game.

DARTMOUTH IS 31 TO 6 VICTOR

Three Periods Bitter Then Columbia Weakens

NEW YORK, Nov. 30.—For three periods the Columbia university teaming the first year under the coaching of Percy Hanchett, gave Dartmouth college a bitter fight, but Columbia weakened in the final period of Thursday's game and was overwhelmed.

Dartmouth scored 21 points in the last session after being held to a score of 10 to 6 in the first three spasms. The final score was 31 to 6.

BOB PRAISES GREEN

In all probability the football critic will select Green of Illinois for the "Big Ten" all-star team, yet Coach Bob Zuppke of Illinois says that Green is one of the best centers in the west. Green's great value to his team is his ability to cover ground. He doesn't consider the mere passing of the ball is the most important task. Green is in every play, down the punts and one of the surest tacklers on the team.

GREAT PINCH HITTER

Only a hand and a half kept Earl Stanley of the Chicago White Sox from being one of the most talked-about first sackers in the history of the game. Eddie Collins says he is one of the greatest first-basemen he ever played with his assistant. "Some conditions since so great a player as Earl Stanley was once a pinch-hitter of Eddie's," Stanley is noted for his ability to hit in a pinch.

"BUST" IN SERIES

George Grantham of the Chicago Cubs finished the 1923 season, the most talked-about young infielder in the National League. Yet in the series with the White Sox his rugged playing cost the Cubs all chances for the city championship of Chicago. He was the "bust" of the series, and his poor showing in that event may have a serious effect on his play of next season unless he pulls a courageous comeback.

TWO STARS SLUMP

In 1922, two of the greatest stars among the young players in the American League were Lu Blue of Detroit and Chick Galloway of the Philadelphia Athletics. Blue was nicknamed by experts as the best first baseman and Galloway as the leading shortstop in the American organization. Neither, however, lived up to expectations last year, both slumping in the field and at the bat.

JOLT FOR BIG THREE

A limited training period and a fixed number of games on the schedule are playing havoc with the prestige of Harvard, Yale and Princeton on the gridiron. If the so-called "Big Three" desires to keep in the running from a football standpoint, some doctoring of the rules that govern the gridiron sport will be necessary.

MAW, AIN'T HE BIG!

"Big" Maw, former Nebraska line-man, qualifies as America's biggest fighter. He's 6 feet 4 inches and weighs 285 pounds. It was necessary to have special gloves made for him.

Steve Donoghue to Ride Indian Pony

LONDON, Nov. 30.—"Come on Steve!" the familiar cry at the English race tracks, heard in France and at Belmont Park, N. Y., will echo now in India.

Steve Donoghue who went down with Payrus to defeat at Belmont Park behind Earl Sande on Zev, is quitting the races here and in France and has agreed to ride for J. C. Galstain in the Calcutta races this winter. He sails from England today and is under a retainer of \$12,500. The famous jockey, winner of the last derby, and the derby's golden spurs, will return to England for the opening of the meeting at Lincoln.

IS COVELESKIE THROUGH?

Tris Speaker is not having very strongly on Coveleskie for 1924. The star infielder of the Cleveland Indians was out the final six weeks of last season with what the doctors diagnosed as rheumatism. It is a singular fact that most spittish pitchers have had similar trouble with their arms when nearing the end of their career, among them Jack Chesbro and Ed Walsh, two of the greatest in the history of the game.

STRONG FOR BLUEGE

Former Manager Don Dush of the Washington Nationals says that in Ossie Bluege the Nats have the coming star third-baseman of the majors. "If Bluege had been in shape to play ball all season, the Washington club would have finished well above 500," says Dush. "We lost at least a dozen games through sloppy play at third by various substitutes."

MUDDY RUEL STAR

Often it takes a lot of hard work and years of effort before a player receives proper recognition. Muddy Ruel, after being shifted around in the American League from St. Louis to New York to Boston and finally Washington, is now pronounced the best catcher in the American league by no less an authority than Connie Mack.

BACK TO COLLEGE

A big first year in the majors, and the statement of Manager McGriff of the Giants that he was the best youngster in the National League has in no way affected the size of the hat worn by Travis Jackson, 19.

AFTER "BIG SIX"

BOSTON, Nov. 30.—An asterisk "Big Six" patterned along the lines of the "Big Ten" in the great has been suggested and is receiving serious consideration. It is argued that the "Big Three," consisting of Yale, Harvard and Princeton, ought to pass up their smaller opponents and meet some of the more formidable eleven. It is suggested that Cornell, Dartmouth and Pennsylvania make up the other half of the proposed "Big Six."

TOUGH FOR SISLER

One of the first statistics credited to Manager George Sisler of the Browns was his intention to start an intensive educational campaign with the players the moment they reported in the spring. A knowledge of the rules and inside baseball were to be covered. Sisler may find that a tougher job than leading the Browns in the first division.

DON MILLER

Terrible always comes in bunches. After losing to Nebraska, Coach Knute Rockne of Notre Dame suffered a second bit of hard luck. Don Miller, star of Notre Dame's great as the result of an injury in the game, backfield, sustained two cracked ribs with Butler.

SCIENCE ALTERS TURF OFFICIALS

Electrical Starters Introduced in Maryland

BOWIE, Md., Nov. 30.—Science, matching ruthlessly toward perfection, has trod on the toes of those exalted officials of the race track, the starters, who break the horses away when they have worked up to the line abreast and prancing for the run. An electrical starter was tried here for the first time Wednesday and worked perfectly.

The new invention consists of a stall for each entrant when the horse is backed into the stall facing the line a thin tape is stretched across to keep him in. At the instant of starting the tape is snapped from all stalls simultaneously. The horses race to their places in the wire and the first trial, obviating the dangerous scramble for position just after the start, in which many spills occur under the old system.

More Trouble

PHILADELPHIA, Nov. 30.—William T. Tilden, world champion at tennis, is not mooting any fingers this year, which will be good news for his rivals.

It was reported Tuesday that Tilden had been compelled to have another operation on one of his fingers but he denied it.

Play Close Game

PHILADELPHIA, Nov. 30.—Ex-bored to fight if they could play football, the discouraged Penn football team hammered and slugged an opponent at the undefeated and confident Red machine from Cornell on Thanksgiving Day and held Cornell to a score of 14 to 7.

BEATS TREMINE

NEW YORK, Nov. 30.—Franklin Genio, American flyweight champion, being under disadvantages of weight, height and reach, won a decision from Carl Tremine, Cleveland, 128. The Ohio boxer had many sure after 12 rounds of in and out fighters who thought him entitled to the decision.

DANNY IS VICTORIOUS

PHILADELPHIA, Nov. 30.—Daniel Kearney, 125, Philadelphia, outpointed Basil Gallina, 134, New Orleans, in eight rounds. Alex Hart, Cleveland, lightweight, won a popular decision over Sailor Fitzman, Chicago, in eight rounds. Caddy Demaree, 128, Pittsburgh, won from Tommy Noble, 131, New York, in an eight-round bout.

It Was Jaw Hurt

Jimmy Bronson, who has been in the ring affairs of the Middle West, of the soldier boy class, pretty fair heavyweight, of weight, is no doubt, is a moderate and is considered a keen mind.

In his own way he is considered a psychologist.

Once in Cleveland, in a fight between Martin and another, Sergeant Ray Smith, he tried some of his stuff on his opponent, well, not with very flattering results.

Early in the fight the middle weight, who was figured to be the victor, clouted the A. E. P. champion on the bottom and sent him to the canvas. It was the first time Martin had ever been knocked down.

Bronson wasn't sure how the young man would react to such a first knockout. Would the knockdown frighten him into either form? Bronson thought hard, and before the ring went back to the round he had recovered upon a small line of mental encouragement.

"Now, you are a big clumsy blunder," shouted Bronson when Martin came back to his corner. "Why don't you watch your feet. You tripped right over them in that round. Made you look bad. Made you look as if you had been knocked down."

Flattered by his own cleverness, this amateur psychologist, who had been so successful in his career, began to show the effect of his words. The young man, who had been so confident, began to look nervous.

"If I had a chance to see you fight, I would not be so sure of your victory," he said. "You are a big clumsy blunder, and you are a big clumsy blunder."

SOLOMON'S SEAL WINS HANDICAP

Clips Fifth of Second From Record Time

BOWIE RACE TRACK, Md., Nov. 30.—King Solomon's Seal, winner of the Prince George's handicap, returned to the track today and won the \$10,000 Thanksgiving handicap the fourth vent on the holiday card. In winning, King Solomon's Seal knocked off-fifth of a second off the track record, completing the distance of a mile and 3-16 in 2:02 2-5. The all record was held by Bunge Buck. Closely bunched at the finish with the winner were Moonraker and Flagstaff. Moonraker was beaten by a head for the first money and he in turn beat Flagstaff a nose for second place.
